

COWLEY & Co
GARDEN BUILDINGS

Giving back to nature

For every garden building purchased, we will plant a tree as part of a sustainable scheme.

Welcome

Cowley & Co offer a premium collection of stylish and practical solutions for making the most of the space available in your garden.

With over 40 years' experience in building and joinery work, all of our buildings are made to order and handcrafted using traditional carpentry techniques by skilled craftsmen at our workshop in South Yorkshire.

The garden buildings shown in this brochure are an example of what can be achieved. Each building ordered can be designed to your individual requirements, we offer a selection of optional extras which enable you to create your ideal garden building to meet not only your practical needs but also your own personal taste.

Our in-house team of experienced fitters will deliver and install your garden building wherever you are located.

If the size or design you require is not shown please contact us to discuss your ideas and requirements. We've included examples of previous bespoke projects toward the back of this brochure.

All Cowley & Co garden buildings are supplied with a one year guarantee and are virtually maintenance free.

Glazing Options

4mm Floated (standard)

4mm Toughened Glass

16mm Double Glazed

Perspex

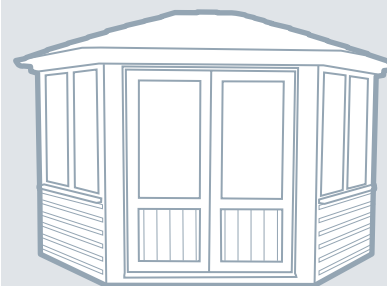

The Hampshire

Extended Summerhouse

Suitable for larger gardens, or if more internal space is required. This stunning octagonal summerhouse allows you to appreciate all aspects of your garden from a single point. It's lower, narrower windows and double doors add a contemporary character to this timeless style of summerhouse, providing good light and a wonderful view from within.

We incorporate double glazed UPVC windows and doors into a strong, well-built structure with a range of colours and finishes available.

Specifications

The Hampshire extended is available in these sizes:

6' x 8'

7' x 9'

8' x 10'

Craftmanship in the Workshop

Design and plan your perfect space.

Designed and built in the UK. Your garden building is crafted in our own workshop. Our team of craftsmen fuse traditional methods with modern tools to produce hand-made buildings which meet our high standards enabling us to offer a one year guarantee on the materials used to construct our summerhouses.

We choose the highest quality woods and hardware to ensure your Cowley & Co garden building can be enjoyed for years ahead.

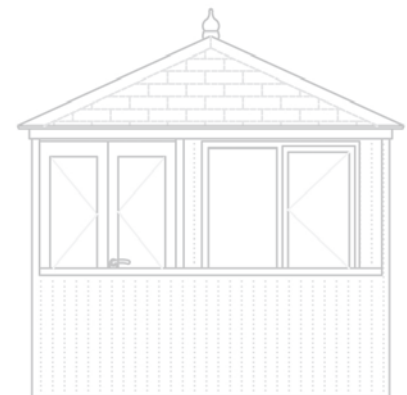

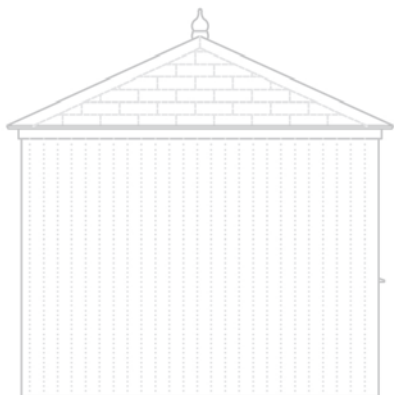

Bespoke Buildings

You imagine it. We build it.

With Cowley & Co you can design and plan your perfect outdoor space.

We don't just manufacture "standard size" timber frame garden buildings - we'll work with you to design and build any size or configuration building in a range of woods and exterior finishes which meets your specific requirements. These are a few examples of bespoke projects: from a school nursery to indoor gym with hottub shelter, anything is possible.

Colour Swatch

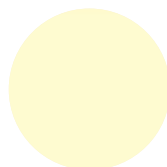

A comprehensive paint system is applied prior to the building leaving the workshop. The paint system comprises an initial undercoat/knotting solution and a further two top coats of your chosen colour from the Sadolin Superdec range. The interior of the building will remain white.

White

White Ash

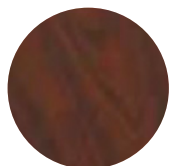

Cream

Irish Oak

Golden Oak

Rosewood

Cream White

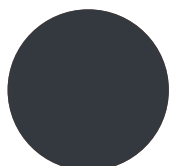

Chartwell Green

Agate Grey

Slate Grey

Anthracite Grey
Smooth

Anthracite Grey

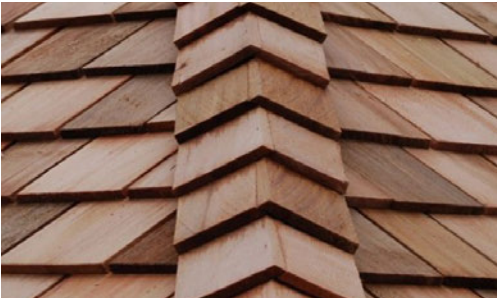

Black Ash

The swatches above are for illustration purposes only as the printing process may not allow an accurate colour representation of paint.

Roofing options

Choose from a range of styles.

Cedar shingle roof

Red cedar shingles enhance the appearance of your building and provide added protection to the roofing felt beneath.

Felt shingle roof

A stylish roofing solution offering superb durability, a watertight seal, and traditional aesthetic.

Slate effect tiled roof

A beautiful, slate effect roof solution, Tapco roof tiles are moulded on natural slates and made from recycled plastic, adding an elegant aesthetic, with a 40 year warranty.

Standard Features

Quality in every build.

All Cowley & Co garden buildings feature the following as standard:

Ironmongery

We offer three finishes: polished chrome, polished brass and satin chrome.

Paint

Our paint is applied in our workshop. The garden buildings are first coated with a knot solution, then primer, before two coats of a highly durable and weather resistant paint is applied in our spray booth. This protects and enhances your building for many years to come.

How to order

You can request a quote for your exact specification building by telephoning us or completing the form on our website. We'll arrange a site-survey, then produce a final quote including VAT, delivery and installation. We'll then confirm the installation date with you. Any general questions you may have will probably be covered in the FAQs section of the website.
